FLEXIBLE DIGITAL SOLUTIONS TO SUPPORT THE WHOLE LEARNER
Empowering Today's Teachers to Differentiate Learning

Odysseyware® is an innovative leader in digital learning across the country, offering standards-aligned learning resources, with built-in assessments, dashboard access to actionable data, and customizable consulting service options that meet unique school and district needs.

As a company founded by educators, our mission is to continue to expand our educational resources and enable and empower today's teachers, administrators and students to achieve success and open doors for a promising future.

We are proud to lead the K-12 digital learning industry by adding social emotional learning to our comprehensive set of learning resources. With this inclusion, Odysseyware now offers an engaging curriculum and the latest in technology-enhanced tools to support success, both academic and social emotional, with a variety of flexible delivery options for schools to select in reaching the whole learner.

EMPOWERING TEACHERS. IGNITING WHOLE LEARNER SUCCESS.

Well-rounded Curriculum: Flexible, customizable content for personalized learning

For nearly 20 years, Odysseyware has been proud to partner with over 5000 educational institutions, serving nearly 70,000 students and 6,000 teachers daily to provide a well-rounded interactive digital curriculum that support school's academic learning goals for grades 3-12. Odysseyware offers school partners over 300 online courses and customizable content that students can access anywhere, anytime, on any device, via our powerful learning management system.

The well-rounded Odysseyware curriculum is grounded in sound pedagogy and research-based design. Two fundamental priorities, backward design and gradual release of responsibility, provide the foundation of our learner-responsive instructional design.

Best-in-Class Customization Options

Teachers can customize or personalize learning paths, author new courses, and monitor student progress with easy-to-use data functions via the Odysseyware platform. Teachers also have the opportunity to incorporate lessons from other content areas- such as CTE – to ensure that students are able to apply their learning effectively.

Competency Learning: Enabling students to demonstrate mastery and move on when ready

Online digital curriculum from Odysseyware provides the key elements schools and districts need to support a competency learning program. Educators are able to meet the needs of all students with personalized learning paths that allow them to guide instruction, while students are able to steer elements of their learning, including pace and place. Through teacher-facilitated instruction, built-in assessments and reporting, and flexible and customizable curriculum, Odysseyware allows students to demonstrate mastery and move on when ready.

SPARK

SPARK, a K-8 assessment and remediation tool for English Language Arts and Reading (ELAR) and mathematics available with each full Odysseyware license, provides efficient and targeted skills practice and remediation. Four sections make up each skill lesson: Anticipatory Set, Objective and Vocabulary, Direct Instruction, and Show What You Know. SPARK is provided at no additional charge with each full library license.

Partnership with NWEA™

For those schools and districts interested in integrating external assessment scores to define Individual Learning Plans (ILP), Odysseyware has partnered with NWEA™ to provide an intervention ILP solution, mapping NWEA™ MAP® Growth™ assessment results for math and language arts to Odysseyware content lessons. The NWEA partnership allows educators using both Odysseyware and NWEA to define critical competency gaps or targets, and define a tightly mapped learning plan for each student.

College and Career Readiness: Preparing students for college, career and life

Odysseyware offers digital content that allow students to explore career interests, gain valuable soft skills, and be well prepared for college, career and life. The Odysseyware curriculum is extensive, offering courses across four content areas, rigorous college preparatory electives, college- and career-entrance test readiness options, and one of the largest sets of CTE courses in the K-12 digital learning industry. More than 120 courses have been approved by the University of California "a-g" program as meeting college entrance requirements.

In addition, teachers have the option to use Odysseyware content to create Internship or workplace readiness courses to support development of career and college readiness "soft skills" that enable success with their postsecondary choices.

Credit Recovery: Allowing students to focus on skills they find most challenging

As a leader in successful, accountable credit recovery solutions, Odysseyware supports students in gaining confidence through their achievement and accountability through successful completion of each course. Odysseyware recognizes the need to ensure that students demonstrate success for the lessons they've covered, as well as those they haven't. Teachers can turn on the CRx Mode in Odysseyware, which allows students to skip units they've already mastered. Teachers can also use the CRX Flex Mode to assign specific lessons and customize their learning paths within a unit to ensure mastery.

EMPOWERING TEACHERS. IGNITING WHOLE LEARNER SUCCESS.

Blended Learning: Differentiated instruction in minutes

In today's world, students need access to digital learning resources to stay on track for success. Teachers are bombarded with digital resource options for the classroom with limited time to review, integrate and identify how to meet each learner's needs. Odysseyware continually incorporates teacher feedback and industry best practices, leading to the recent launch of ClassPace™ — a blended learning solution that offers a powerful bank of standards aligned content and a real-time progress dashboard. Students immediately engage in the lessons with a fun digital interface offering relevant content and a planner feature to give them choice, voice and a rich variety of learning options.

Select a group

Choose students to include in your class or group.

Select content

Easily search and select standards-aligned digital content to create an assignment playlist.

Assign & monitor

Assign content to student playlist and monitor progress in real time.

Adjust

Use actionable data to create new playlists or groups in just a few minutes using your tablet or desktop.

Social Emotional Learning: Expanding the reach of counselors to support students efficiently and effectively

Kids today face a complex world, with relationships and decision-making complicated by social media, trauma and violence. Odysseyware now offers BASE Education for grades 6-12, a powerfully-engaging, SEL solution, backed by research, for both prevention and intervention. BASE Education extends the reach of counselors and administrators to avert crises, and quickly identifies the challenges students are facing which can be extremely helpful for those hesitant to talk about their problems. With over 60 courses available now and a separate portal for parents/guardians, the systemic BASE Education approach helps students learn to build strategies to handle issues such as anger, bullying, self-esteem, communication, substance abuse, helplessness and motivation. New courses, including for grades 3-5, to release fall 2018.

Customer Success: Ensuring a sustainable and effective program to support a variety of needs

The Odysseyware Customer Success Team develops strong and sustainable partnerships to ensure customers get the most from our solutions to truly meet the most important goal – success for the whole learner. This includes professional development and services, working closely with schools and districts to develop goals and a customized implementation plan together. This can include ongoing consulting and coaching, up-to-date integration and syncing of data with SIS systems, and technology services to facilitate integrations.

Odysseyware Academic Services: Extending your reach to support students unique circumstances

Odysseyware Academic Services provides instructional and support services to schools and districts looking to expand their course offerings, address teacher shortages, and supports districts in offering their own virtual school within their district. The students and their funding stays with you! Schools also have the option to enroll students in Advanced Placement or more than 124 courses approved by the NCAA through the accredited Odysseyware Academy.

Odysseyware is proud to offer award winning content to schools and districts. We take great pride in continually updating our content based on user feedback and industry best practices. Our curriculum and programs are regularly submitted for rigorous reviews and state level approvals. In addition, Odysseyware is committed to maintaining our leadership in the digital learning industry, including memberships with respected entities.
